STAINLESS STEEL 180 DEGREE ELBOW

Stainless Steel 180° Elbows create a full U-turn in piping systems, enabling flow direction reversal with minimal space. Fabricated from SS 304, 316, 310, and Duplex, these elbows are available in seamless and welded forms. Sizes range from ½" to 24" with schedule ratings from SCH 10 to SCH 160. Manufactured to ASME B16.9 and DIN standards. They are ideal for power plants, heat exchangers and process piping where space-saving bends and corrosion resistance are essential
