

STAINLESS STEEL PHILLIP PAN HEAD CSK SCREW

Phillips Pan Head CSK Screws feature a rounded top and cross-recessed drive, offering both torque efficiency and clean finish. Manufactured from SS 304/316, available in sizes M2 to M12, with standard and fine thread pitches. Compliant with DIN 7985 and ISO 7045. Used in electrical enclosures, appliances and machinery where corrosion resistance and easy removal are priorities.
