

STAINLESS STEEL REDUCING HEX COUPLING

Reducing Hex Couplings connect two pipes of different diameters in a straight line, combining a reducing function with a hex body for easy installation. Made from SS 304 and 316, sizes range from 1/4" x 1/8" to 4" x 2", with NPT/BSP threads. Pressure ratings up to 6000 PSI. Standards: ASME B16.11, ASTM A182. Used in hydraulic, chemical and water systems requiring strong, compact, corrosion-resistant transitions between different pipe sizes.
