

STAINLESS STEEL STRAIGHT TEE

Straight Tees (Equal Tees) connect three pipes of the same diameter, offering a 90° branch connection. Manufactured from SS 304/316/321/904L available in sizes from ½" to 24" with schedules from SCH 10 to XXS. Conforms to ASME B16.9 and ASTM A403 standards. Suitable for high-pressure piping in industries such as power generation, food & beverage and chemical processing ensuring uniform flow distribution and strength under demanding conditions.
