

STEEL SLIP ON FLANGES (IBR & NON IBR)

Slip On Flanges are designed to slip over pipe ends for easy alignment and welding. Available in IBR and non-IBR certified carbon and alloy steel, sizes: ½" to 24", pressure ratings: Class 150 to 2500. Standards: ASME B16.5, IS 6392, IBR approved. Used in process piping, boiler lines and water treatment plants for easy installation and long-term leak-proof performance.
